Join us at this **free** business after-hours event, for peer-to-peer export networking and to access free local export support services information.

At this meeting, find out more about...

UK Bribery Act 2010 – How it affects UK exporters. Anti-corruption law dating back to the 1880s was recently overhauled with some of the most significant reforms to criminal law in a century. This has far reaching implications for UK exporters who could now be responsible for the actions of their 3rd party representatives, agents and distributors. SITG are therefore pleased to announce that Leah Finnegan from local law firm Birketts LLP will be highlighting what Suffolk's exporters need to be aware of in this law.

Special Addition to the programme!! Through the extensive contacts that SITG has through UKTI we have been able to secure the presence of **Mr Damion Potter** at the forthcoming meeting. Damion is the **Head of the Commercial Section at the British Embassy in Moscow**. He has a wealth of experience in both the private sector and the diplomatic service. As Head of the commercial section of the Embassy in Moscow, Damion has extensive knowledge of the business climate in Russia as well as extremely useful contacts in the region.

Due to the importance of both guest presenters, presentation time at this meeting may be slightly longer than normal.

Suffolk International Trade Group is a collaboration between Suffolk Chamber and UKTI East.
