Global Business Network

The British Chambers of Commerce

We represent and campaign for business.

Our roots are local, but our reach is global.

We're owned by, and work for, a network of Chambers of Commerce that champion and support our members all across the UK and in countries and markets around the world.

Our unique perspective gives us unparalleled insight into British and global business communities – every sector, every size, everywhere.

They trust us to be their advocates, and we're passionate about helping them trade and grow.

Working together with Chambers, we drive change from the ground up – and our bottom line is helping companies, places and people achieve their potential.

Introducing the Global Business Network

We are a comprehensive, international network of British Chambers of Commerce and business groups located across the world, that will drive two-way commerce and business between each location and the UK.

The network acts as an agile and reliable ecosystem for businesses wishing to widen their international horizons. Each Chamber has a diverse membership of both services and goods companies, willing to share advice and provide trusted connections. This means that a company that is a member of any Chamber in the British Chambers of Commerce network can benefit from international B2B connections, support services and solutions, practical advice about the local business environment and potential market opportunities; all provided by a known and trusted partner.
