

5G Insights & Updates

The Suffolk Chamber is proud to host the Suffolk Business Digital Champions group, a dedicated initiative to unlock the potential of 5G for businesses across Suffolk.

As part of our key Transport & Infrastructure priorities, the Suffolk Business Digital Champions are working to raise awareness of the benefits of 5G within the local business community, advocate for greater infrastructure investment to enable successful 5G rollout, and support businesses in navigating the fast-evolving digital landscape.

A key area of focus for this initiative is exploring how 5G technology can transform business operations and unlock new growth opportunities.

Mobile UK, the trade association for the UK's mobile network operators, has recently published several articles highlighting the impact of 5G and mobile connectivity:

- **Government Must Act Now to Unleash 5G Potential** – The UK has the potential to be a global leader in 5G and the next generation of mobile networks. [Read more here.](#)
- **FarrPoint's Connectivity Survey 2025: Reinforcing Mobile's Central Role in Society** – FarrPoint's latest survey offers a snapshot of the digital priorities and challenges local authorities face and the impact of the industry's role in delivering nationwide connectivity. [Read more here.](#)
- **UK Government Funded SRN Mobile Phone Mast upgrades hit 30 site milestone** – 30 government-funded mast upgrades have now been activated as part of the Shared Rural Network (SRN). [Read more here.](#)

These articles underscore the importance of initiatives like Suffolk Business Digital Champions in helping businesses stay competitive in a digitally connected world.

We're proud to play a role in this journey and look forward to supporting our local business community with the latest insights and tools for digital growth!
